Tvrtku Ormario sam angažirala za izradu police i ormara na preporuku kolegice. Odmah tijekom prvog dogovora, svidio mi se pristup poslu gđina Maria, izuzetna profesionalnost te spremnost na sugestiju. Oba projekta su završena u dogovorenom roku i uz razumnu cijenu. Toplo preporučam tvrtku Ormario i veselim se budućoj suradnji.

Mario did two projects for our home - a closet in the bedroom and a closet in the hallway. At first, he carefully listened to our requests, and by visiting the place he suggested the best option, He offered high quality materials and colors fit to our home environment. Unlike others, he is putting his experience in building the product together with you. It really improved our storage space functionally and visually. His service is fast and professional.

I would like to outline 2 characteristics that impressed me the most about Mario:

1. Professionalism – he has done what we agreed, when we agreed, for the price we agreed
2. Quality – although some other “experts” told me my ideas cannot be implemented Mario did it and he did it so I show his work to everybody – it looks great and it functions perfectly

I highly recommend Mario's services!

Toplo preporučam firmu Ormario, koja mi je izradila kliznu stijenu, kao pregradu između spavaće i dnevne sobe. Posao je napravljen onako kako smo se dogovorili, te unutar planiranog vremenskog okvira.

Gospodina Maria doživljam kao jednu vrlo otvorenu osobu, koja mi je vrlo transparentno ponudila moguća tehnička rješenja za kliznu stijenu i bila tu za sva pitanja/sugestije. Odličan posao!!

ORMARIO je ekipa kojoj je stalo da njihov korisnik bude zadovoljan sa svakim detaljom ne samo projekta nego i izvedbe.

Dugo nisam imao prilike upoznati toliko precizne montere koji paze na svaki milimetar.

Osim što pedantno slijedi ideje naručitelja, ORMARIO se trudi svojim iskustvom pomoći kako bi ideje bile izvedbeno spretnije i elegantnije provedene.

Palac dolje za ORMARIO.

Naravno, riječ je o šali: PALAC GORE ZA ORMARIO !

Oni u svakoj utakmici žele kvalitetom pobijediti i neka takvi ostanu što dulje.

Dilemu oko klizne stijene u stanu, riješila sam pronalaskom tvrtke Ormario, i to putem interneta. Od prvog kontakta, suradnja je bila odlična, super preporuke i ideje za moj prostor, vrijeme isporuke i ugradnja točno u datum, sama izvedba odlična, nisam imala dojam da su majstori uopće imali radove, sve je napravljeno vrlo uredno.

Mario at Ormario did a great job with our built-in closet. He respected deadline that were agreed and quality of work was really good. We are enjoying its benefits for more than a year now and it works perfectly. Price that we agreed was more than fair and I can only say that I highly recommend Mario to all who are in need of modern and quality built-in closets.

I have purchased two built-in closets for my hallway over a year ago. I have to say that Mario did a great job with them and now I can truly say that they have stood the test of time. Both of them are still looking as new and I am really pleased with them. I had a good idea of what I wanted and Mario respected my wishes, but he also greatly contributed to final design with his knowledge and experience. I would strongly recommend hiring Mario for designing and executing any storage project.

We received very professional advice from Mario while searching for tailored-made furniture. He took time for considering the practical and visual aspect of the furniture, opened our eyes regarding critical details, and provided us with professional simulations of the furniture to be built. The realisation went smoothly, was on time and performed by serious professional workers. Details have been taken into account as planned, and no bad surprises were noticed. (Or)Marios' work is highly recommendable !

I found Mario when I was looking for ideas about designing a built-in closet in a very complicated space. His website and LinkedIn spoke of a dedicated professional with many successfully completed projects and satisfied customers so I called him and arranged a meeting. In half an hour he dished out designs I never dreamed of and very soon my unsolvable closet was designed to my satisfaction. The price was high, but Mario convinced me it was justified and as it turned out he wasn't wrong. My closet is being used dozens of times every day and still looks brand new.

Even more than that, as a person and business-owner Mario proved to be reasonable, patient and polite no matter what, all of which makes him very easy to work with. On top of that he has magnetic personality and really knows how to do his job so I'll be surprised if you visit his office and walk out without sealing the deal.

This letter is my personal recommendation for Mario Srdarev. In January 2002 I was employed at the Eduro d.o.o. company where Mr Srdarev was assigned to me as my mentor. In his work, Mario was extremely reliable, hard-working and creative. With his ideas and dedication he inspired and motivated the whole team to do their best. As a mentor, Mario was really forthcoming and patient. He taught me a lot and provided an insight into working practices, but at the same time, he was taking into account my own ideas that contributed to the successful functioning of the company. Mario also had higher-level relationships with our clients. He was always eloquent and gentle in his manners, which resulted in high satisfaction of all our customers.

Sincerely,

We ordered our walk-in closet in the spring of 2012 from Mr. Srdarev - Ormario. The job was done in time and according to our agreements and specifications. Mr. Srdarev was highly professional and gave us good advices concerning the choice of material and design. The installation of the closet was done professionally, on time and without any fault. Moreover, the closet is still in perfect shape. We can recommend Ormario and Mr. Srdarev warmly.

I hired Mr. Mario Srdarev after seeing on his web site the solution I was looking for. The first contact was easy and Mr. Srdarev was more than willing to listen and help with advices that later on helped me to make a final choice of materials and design. His patience is only a part of his customer oriented approach. The other value for the client is his readiness to adjust his working hours to the client's demands. These two criteria make him unavoidable when choosing a partner. After that, You have no fears that the job itself wouldn't be done in time and with promised quality. He notified me in advance that there would be a need for small adjustments (accessories not available at the time) and he kept waiting for as long as it took me to find time to enable corrective assembly. He is straightforward person and hides nothing up his sleeves. That is why I can recommend him and will probably hire him again.

After several bad experiences with contractors who have no sense and respect for deadlines whatsoever (and we all have probably experienced that at least once) a collaboration with Ormario has been really refreshing.

Ormario and his team simply inspired us with many ideas. They developed, created and transformed our desires into reality, up to the last little detail.

In some moments, even what seemed impossible became possible.

The result was absolutely fantastic! And most important - we were thrilled with their precision and accuracy.

My girlfriend and i were moving in together and we needed a wardrobe. Our friend recommended (Or)Mario and so we went to see him although we had already made a decision to hire someone else for the job. On the sight we immediately became fond of Mario. He proved to be easygoing, excellent advice giver, realistic, open and honest in communication, and on the top of things. Delivery was much earlier then agreed, with all people participating from his side being very professional and on time (which was very important for me). So we have been provided with an excellent service, with no hidden costs. And Mario always makes a follow up on the terms agreed and work

performed. So I am going to recommend Ormario to all of my friends, relatives, acquaintances....

If you like functional, well designed and custom made furniture and you don't like waiting a long time to get it I would highly recommend Mario Srdarev. Recently, I needed a sliding door installed between my living room and staircase. I lost a lot of time and energy on solutions made by some interior designers. Then I found web site Ormario. It was promising although I thought to myself there is no chance everything will be done on time and as planned, but let's give it a go. I accepted Mario's offer, the job was done on time, everything was prearranged and done exactly as we planned. There were no surprises or additional expenses. Mario even recommended some changes that made my door more practical. Mario Srdarev is an expert in his work and I would recommend him to people who value their time and money

After completing our hallway and bedroom wardrobe I was certain I would continue to cooperate with Mario (as we do even today). Mario showed a lot of patience and tolerance during the process of choosing the wardrobe specifications, helping out with much appreciated suggestions/solutions, and yet imposing none of them. I was especially grateful for Mario's practical solutions for the hallway wardrobe, where he showed experience and ability to adapt to the given limitations (such as awkward space).

Mario insisted on defining the wardrobes' specifics in detail, letting me know what are my options, and leaving me enough time for making a decision. His palette allowed me to choose something that exactly matched my taste and budget. Upon reaching the agreement, delivery and assembling was done timely, professional and without further questions and/or misunderstandings.

I would and have recommended Mario to anyone who seeks for professional service and a flawless product.
